The Bulletin

Norwich, Tuesday, Aug. 22, 1911.

VARIOUS MATTERS

Goes with that good cigar—Clymic Water. Healthful as Sunshine—adv.

Light frosts were reported in some localities Monday morning, but no damage was done.

George Geer of Laurel Hill avenue was given a surprise party at his home Monday evening and a delightful time resulted.

Thirty-seven hundred people were brought into New London Sunday on two excursion steamers from Providence and New Bedford.

Many attendants from this vicinity are returning to their homes from the Northfield conference meetings, the 25th Moody session having closed on Sunday.

The passing of a well-known follower of the sea came Sunday night in the death of Capt. Edward M. Grumley at Noank. He was born in Saybrook October 14, 1828.

Special excursion car to Watch Hill at 8.45 a. m. Round trip ticket at Maiden's store, 70 cents. Good to return on any regular car same day—adv.

Crabs are not so plenty this summer as for several seasons back. Those caught are of a smaller size than common. Crabs and mussels are thriving along the shore.

Connecticut is the great northern state for peaches this year. In great crop is reported from the Wallingford orchards. The crop elsewhere is not doing much.

Grangers, farmers, everybody, come and meet with The President at the Great Convention, Fair Grounds, Oak Park, Hartford, Sept. 4 to 9, 1911—adv.

Rev. John D. Coyle of St. John's church, Milford, is recovering from his injuries received in a recent automobile accident and will be able to be out in a few days.

George Whittlesey of the New London Savings bank has returned after a delightful vacation of several weeks spent partly in his usual treat of walking through the country.

In the annual charity performance of the Norwich Vaudeville club at Eastern Point Saturday night, Miss Lois Perkins of this city scored a hit with her recitation of Casey at the Bat.

New London County Agricultural Society. At the Fair Grounds, Norwich, Sept. 4, 5, 6, 1911. Will be the best fair in the history of the society. Come one, come all—adv.

Another tank of oil was received by the city on Monday. This will be unloaded at once and it is expected that the section of Laurel Hill avenue where the new sewer was built will be resealed.

The official party of Sons of Veterans from Connecticut who will attend the national encampment this week includes Division Commander A. O. Fairbanks of Norwich and Delegate E. C. Babson of Danbury.

Many Connecticut Knights of Columbus are planning a pilgrimage to Boston on Columbus day, October 12, when there will be 50,000 members of the order in that city and President Taft will be one of the speakers.

The shortage of clams is more noticeable this year than ever. The Rhode Island crop has been growing smaller for several years and now other clamming grounds are failing to meet the demand.

Miss Mary Ann Peterson will observe her 14th birthday at New London, Conn. Monday. Apparently she is as excellent as ever, and her mind is wonderfully clear. She has outlived all her immediate relatives.

Sidney Keeney of New London had a narrow escape from drowning at Ocean beach about 5 o'clock Sunday afternoon. He was pulled out of the water by George Noble. Doctors attended him and he was revived.

Mayor Mahan, who is president of Ocean Beach day, will be unable to be there, as the bill affecting the granting of a special short term license to The Griswold is among the matters to come up at Hartford today.

Harry H. Knowlton, past chief ranger of Court Nathan Hale, No. 64; Foresters of America, who is a state delegate of the order, left New London Sunday for Detroit, Mich., where the annual national convention is to be held.

Harry Ellonsky of New London will start at 6 o'clock this morning for Ocean beach to swim to Fishers Island. He is confident of reaching the island, though it is said the strong current will carry him out of his course.

Robert Arvone of Norwich is staying at the Watch Hill house for two weeks. He has just returned from a trip to Alaska and he says that the climate at the Hill is not very much different from that of the country where he has been.

Secretary Anson Phelps Stokes of Yale and Mrs. Stokes will sail next Tuesday for Europe, to spend Rev. Mr. Stokes' sabbatical year in travel. Secretary Stokes' duties will be divided, during his absence, between the other executive officers of the university.

Mrs. W. H. Palmer of North Stonington, who has been suffering with what seemed first to be a little tumor on her right eye, came to Norwich to see a specialist recently. She had been attended by different physicians who could not give her any encouragement for saving the eye.

The wedding of Duncan Belcher, youngest son of Judge and Mrs. William Belcher of Farmington street, and Miss Marion Fensay, second daughter of Lieut. and Mrs. Cyrus E. Fensay of Post Hill place, took place Monday evening at 8 o'clock at St. James' church, New London, Rev. E. V. Norwood officiating.

DIRECTORS WILL CHANGE.

Old Board at Hopkins & Allen Factory Will Have Final Meeting This Afternoon.

Monday was the last day for the transfer of the stock to the buyers from New Haven, and it is understood that somewhere about three-quarters of it was turned in by the old stockholders and they will receive their money in a day or two. The new owners will be here today, when the formal transfer will take place.

There will be a meeting of the old board of directors of the company this afternoon at two o'clock, which will be the last as the board is constituted. Those of the board who have sold their holdings will resign and new directors will be elected to fill their places. There will be a local representation on the board, it is understood.

There are quite a number of the stockholders of the company who retained their stock, believing that the new blood will be able to make a success of the enterprise. It is understood that the intention is to run the plant at full capacity and it is probable that it will not be confined to the manufacture of firearms should there be any slack time in that line.

PERSONAL

Miss Rankin of Newburg, N. Y., is visiting in town.

Miss Rose Leopold is visiting her sister, Mrs. Anna Murray, in Rochester, N. Y.

Misses Gertrude and Martha Ward have returned from a visit in Saugerties, N. Y.

Miss Viola Spalding of Greene, R. I., is the guest of Mrs. Mary J. Lovett in this city.

Misses Grace and Alice Greenwood of Taftville are at Watch Hill for a week's outing.

Mr. and Mrs. N. Eugene Smith have returned from their vacation spent in the Berkshires.

Miss Mary Cary and L. Cary Headley are visiting Mrs. Dwight C. Peck at Groton Long Point.

Mr. and Mrs. William L. Fletcher and family have returned from a stay at Scotch Cap.

Jeremiah A. Desmond has returned from two weeks' stay at Pleasant View, R. I.

Miss Clara E. Griswold leaves today for a visit of several days with friends at Groton Long Point.

Mrs. George Casey, who has been visiting Mr. and Mrs. Joseph Carr of Slater avenue, has returned to New York city.

Clarence A. Johnson, who has been at the Norwich state hospital for several days past, returned to his home in Preston City, Monday.

The Misses Virginia and Florence Loomis of Lebanon were guests of their cousin, Miss Hazel Loomis of Prospect street, over Sunday.

Charles Fiske of Norwich spent Sunday with his family at the Fiske cottage in Broadway, Pine Grove.

William Crawford returned Friday to his home in Baltic after a two weeks' trip to Bermuda.

Miss Blanche Porter of Lincoln avenue has returned from a visit with her mother, Miss Eleanor Hine of Fishers Island.

Mrs. Robert Montgomery and her sons, Robert and Theodore, of Fairmount street, spent part of last week at Crescent beach, Niantic.

P. C. Presby and family were recent guests of Dr. and Mrs. C. W. Hale of Springfield, Mass., at their summer home in North Stonington.

Mr. and Mrs. Charles Hall and daughter Mary have returned after spending a few days as the guests of Mr. and Mrs. J. E. Scott at Best View, Pleasant beach.

Marguerite and Mary McCormick, age 9 and 5 years, arrived in Norwich Thursday evening at 10 o'clock. They are the daughters of Mr. and Mrs. Fred Gauchier of 103 Franklin street, making the trip from Philadelphia alone.

Mrs. F. C. Presby and Masters Newell and Robinson Presby returned to their home in Arlington, N. J., on Saturday, after spending a month with Mrs. Presby's parents on Grove street.

Week end guests of Miss Inez M. Spencer in Washington avenue, Niantic, were Miss Mary and Miss Mabel of Norwich Town. Miss Isabelle McQueen of New London, assistant matron of the Memorial hospital, and George Curtis of New London.

TWO-HOUR SESSION OF EXECUTIVE COMMITTEE

Sewer Construction Reports and Petitions Acted Upon—Discussion Concerning Police.

There was a two-hour session of the executive committee of the court of common council on Monday evening in the mayor's office, city hall, at which Senior Alderman Gebrath presided. There were numerous small matters which came up before the committee in the way of reports on petitions which were acted upon favorably.

Concerning the two sewers which have been constructed, it was reported that the North Thames street sewer was built at a cost of \$263, the amount appropriated having been \$350. The cost of the Laurel Hill sewer was \$221.10, but the margin here was smaller, though built within the appropriation, which was \$320. The ledger was found here to bring the cost up. Both of these sewers will be reported at the next council meeting and hearings will probably be held on September 18.

Much of the evening was taken up with an animated discussion concerning some police measures in which several of the committee and others in the council took part. It was stated that there was nothing brought up regarding new appointments or promotions, but the reason for the selection of Policeman Malone to act as sergeant in Greenville instead of Policeman Mathews, who has always done it previously, was asked. This was simply a matter of discussion as there was nothing to act upon.

Luncheon and Bridge Whist. Mrs. Horatio Bigelow entertained 24 of her friends at a luncheon and bridge whist at the Pequot casino Monday. A large center piece of pink graced the table. The women wore corsage bouquets of pink and white sweet peas tied with green chiffon ribbons. The card room was decorated in yellow, large vases of yellow flowers being distributed in profusion.

A Good Tonic

If your system is run down from the effects of hot weather, lots of worry, excitement or perhaps other causes, then take

Common Council and Water Board Members Look Over the Reservoir—Daily Progress on Corewall and Embankment—150,000 Gallons of Water Running in Twenty-four Hours.

For the purpose of noting the progress and inspecting the work done at Stony Brook reservoir, the members of the common council met on the board of water commissioners and several others were invited by Superintendent Casey to look over the basin where nearly nine score of men are at work putting it in condition for the impounding of water, just as soon as possible. The visit was a revelation to many in the party, who had not seen the locality or noted the headway which is being made on the job. The work was thoroughly looked over and seven of the party took a trip in the bucket on the cableway, going across the basin over the corewall and return.

Those in the party were Mayor C. F. Thayer, Aldermen Henry Gebrath, Thomas H. Beckley, W. C. McLaughlin, Councilmen Lang, Cruthers, Fowler, Briggs, Delaney, Baker and Barry, A. S. Constock, J. J. Corkery, Dr. E. H. Harriman, Judge N. J. Ayling, Dr. N. B. Lewis, L. W. Whiting, E. C. Lilli, bridge, S. B. Palmer, W. F. Hill and newspaper men.

Busy All Over the Job. The trip was made by auto, five being used, and they left Union square at 2.30 o'clock and reached the square on return at 6, after a delightful trip. Most of the party had seen the work at some stage of it, and the progress which has been made is very noticeable. The opinion of the party was that the work of the Petroski Construction company the work will all be completed by the first of the year. He now has 15 men at work on the job and intends to add 60 more at once. The help is well distributed over the basin, which presents a busy scene, the work of men mated here and there at work on the different sections of the job. About the corewall into a number, while many others are engaged in loading sand, which is at present being obtained from the north end of the pond, where a deposit of sand was found in the last year. The sand is being carted to the dump of the basin and other teams are drawing in gravel for the making of easier access to the mounds in the center.

Hurrying the Cleaning and Filling. Mr. Petroski states that by the middle of next month the job of getting out the loam and roots in the center of the pond will be completed. The work will be finished and the filling done. This shovel keeps a number of two-horse carts busy carting off the material, which is being carted to the dump of the basin and other teams are drawing in gravel for the making of easier access to the mounds in the center.

Corewall Going Up. The work on the corewall is being pushed as rapidly as possible. The third section above the ground has been poured and it now remains to pour the one-half mile done, states Engineer Palmer. This is being advanced rapidly because of the great help the cableway is being equal to the work of 100 men every day. It is in use. This work of building the earth embankment on both sides of the corewall is being carried on by the cableway, which is being used to the north and south, counting both sides, will be about 120 feet from inside to the outside. The material for this embankment on the inside is being taken from the west side of the basin, and over 15,000 cubic yards will be taken from there and

filled up against the corewall in alternating layers of loam and gravel which is rolled down. Both the dam and the side this embankment will be riprapped and this work has been started below the dam, where the embankment is also being built from material on that side, there being a natural embankment in the center which will save much cartage. The same amount, or about 15,000 cubic yards, will be needed against the outside of the corewall.

At the Gatehouse. While the party was inspecting the floor of the basin and the gatehouse, a group picture was taken by Engineer Palmer with the party looking up to the corewall. The gatehouse foundation has been done for some time, covering the intake pipe. The mechanism for operating the gates is being installed. The bottom of the supply pipe in this house is 8 1/2 feet lower than the overflow of Fairview, while full pond there will be 18 1/2 feet higher than Fairview. The screens for the pond will be inside the house and so constructed that there will be no seepage, one of which can be lifted and cleaned while the other is in position. There will be no long movable pipe running into the pond with a strainer from the gatehouse as at Fairview. The water goes directly into the gatehouse. Most of the party had seen the work at the 24-inch delivery pipe bound for the city. There will be three gates so that the water from the top, center or bottom of the pond can be drawn as desired, when the pond is full.

Stream of Water. There continues to be quite a stream of water running through the basin. This goes off through the waste pipe, draining the pond, so that it makes the work easier there. As much as possible of the water is being held back in the Palmer pond, so called, but there is quite a stream running down the ditch and into the waste pipe, and it was estimated by Superintendent Casey that fully 150,000 gallons are furnished by the brook every 24 hours now.

Just before the party left to return home, the mayor, Mr. Thayer, Mr. Ayling, Cruthers, McLaughlin, Corkery, Barry, Harriman and Delaney, made the trip across the basin in the bucket of the cableway.

Work on Pipe Line. Good progress is being made to the pipe line work. Contractor Torrance has his work well along, but has not even started excavating the ledge in the cut through the hill. He did not lay much pipe last month, but has put in considerable this month.

Contractor Dodd has his men excavating across the lots from a point just beyond Maplewood cemetery. He has the trench opened up for a number of hundred feet out into the lots. On Monday a test was made of the pipe which he has put down from a point just east of Maplewood to the gate in the pipe line near where it leaves the highway. It was found all right, and quite a section of the trench was now being covered in.

The work which the water department men are doing has reached a point between Asylum and Ann streets, an excavation with a steam shovel having been made, and a 16-inch pipe is now being put down.

Concrete Meter House. The Venturi meter for this pipe line is to be housed in a building just at point where the pipe line leaves the Salem turnpike, west of Maplewood. It will be of concrete, similar to the one at Fairview, and the tubes for this have been set. A. B. Coultas of the Builders' Iron Foundry was here recently and gave the department some valuable advice regarding this. The meter will not be set until the building is done.

New Road Not Started. No work has been done on the building of the new road which will take the place of the one across the basin, which is to be abandoned. The new road will go under the dam at the Palmer pond and will be built later by the city.

The second dam, which is to be built for the overflow, has not yet been started.

DEMONSTRATION GIVEN OF HILL CLIMBING AUTO. Tests Were Considered Satisfactory. Considering Power of the Machine.

A demonstration of the hill climbing abilities of a White 30 h. p. 1-1-2 ton chassis was given here on Monday morning before Mayor Thayer, Fire Chief Stanton, the fire commissioners and other members of the city government to show the possibility of using such a truck for fire fighting purposes.

The truck was in charge of Arthur M. Brewster, formerly of this city, now commercial man for the makers, and Demonstrator J. H. Hiseox. The test was conducted about 10 o'clock, leaving the department headquarters with Mayor Thayer, Chief Stanton, the three fire commissioners and members of the fire department. 17 men in all in the machine. The first climb was up over Church street, Court street and Cedar street hills, where it was made in about 10 minutes to the end of North street. The tests were considered satisfactory.

The two men with the machine are a little under 100 lbs. each. They are Taftville and Jewett City, expecting to reach the Hub in about six hours. It took them eight hours when they came here on Monday.

CHARGED WITH BASTARDY.

Anthony Calisha Finally Brought Before Justice—Found Guilty and Takes an Appeal.

Anthony Calisha of Greenville, on a charge of bastardy brought by Annie Pletnik of Greenville, was brought before Justice of the Peace Albert J. Bailey on Saturday afternoon. He took an appeal to the court of common pleas, and his attorney, William H. Shields, furnished bonds of \$400, the attorney's security being the accused's bankbook.

This child was born to the young woman in April, 1910. She charged that the accused was her father. In the testimony it came out that the plaintiff had been married seven years ago by Rev. John J. Ambott pmqeeed by Rev. John J. Ambott to Cosmic Pletnik, who reported it missing, that the mother was played Monday evening and were hard fought games.

Missing Boat Found. The pleasure boat Quinebaug, which was missed from the Nelson Boat club on Friday last, and which had not been located Sunday night, and was reported to the police as missing, was found that a member had it at Kitemaug. It was known to some of the board of governors, but not to the one who reported it missing, that the member was to keep it a few days, hence the idea that someone had entered and taken it without authority.

One of the board looked up the entire length of the Thames river for it on Sunday.

WHITAKER WON OUT IN SECOND DIVISION. Defeated Burns on Playoff of Tie—Got Three of the Five Games Played.

On Monday morning L. E. Whitaker of Springfield returned here to play off the tie in the second division of the national league tournament with E. R. Burns of Meriden. It was decided that they should play for the best three out of five games, and the series opened at 10 o'clock.

The first game was taken by Whitaker, who won easily, having no trouble in defeating the Meriden player. In the second game it went the other way. Burns, who has won in this game and Whitaker got but three arches.

The third game was won by Burns and it was a close finish. In the fourth game Burns was way ahead when Whitaker got a shot and corralled the balls and ran the game out without allowing his opponent any more opportunities.

The fifth and deciding game was a hard one. With each having two games to their credit, it was the deciding game, and both were well played. Burns got the balls and got both of them started. He had one rover and his second ball for the next to the last arch going down to the first stick when Whitaker got possession of the balls. They again changed hands and Burns had a chance, but he slipped up with his white ball. Whitaker with his blue ran around the court and so tied up Burns that he was unable to hit when his turn came. Whitaker was not long in running out with the other ball and putting the game safe away. He was given vigorous applause by the few in attendance when the game ended about 7.15 o'clock. There was a time during the game when he had little hope of winning. The situation changed, however, and he took advantage of it.

This completed the tournament games for the 1911 tournament. President Williams remained over Monday, leaving for home by the last train Monday evening. He conducted a very successful tournament and will return this year to help along his favorite sport.

H. T. Webb left on Monday with other Philadelphia players and thus forfeited his game with Foss, which helped the latter's standing, but had the Philadelphia player won he would have tied Williams for fourth place.

Local Tournament Started. A local league tournament has been started this week in which it is expected that nine or ten players will participate for the first and second prizes. Those who are expected to play are J. H. Foss, W. T. Sullivan, Capt. Henry Wahly, L. E. Stockwell, Channing Huntington, Fitch Jewett, Francis Chase, G. A. Sullivan and P. S. Symington.

How to Banish Wrinkles Quickly

(From Guide to Beauty)

If the average woman only knew it, it is not difficult to preserve the youthful contour and velvety smoothness of complexion. Every woman hates to see her face wrinkled or baggy, and practically every one has experimented with some sort of patent remedy in the effort either to remove such condition or ward it off. As a matter of fact, the most effective remedy in the world is one that any woman can easily make up herself at home, in a moment's time. Let her take one ounce of pure powdered sassafras, which she can purchase at any drug store, and dissolve it in a half pint of witch hazel. Apply this refreshing solution to the face every day. The results are surprising and instantaneous. Even the very first application a marked improvement is apparent. The wrinkles are less in evidence and the face has a comfortable, snug feeling of firmness that is most delightful.

Incidents in Society

Mrs. Mary Whiting of Otis street is visiting friends in Milford.

Mrs. Susan Hartshorn of Broadway is visiting in Providence, R. I.

Mr. and Mrs. F. E. Dowe of Summer street leave today to spend some time at Nantucket.

Mrs. Henry F. Palmer of Otis street and Miss Amanda Bushnell of Philadelphia left on Monday for a visit in Clinton.

Mrs. Edgar Borden and Miss Edna Borden of Fall River, Mass., are the guests of Miss Annie E. Vaughn of Broadway.

Mrs. Benjamin Sands of Brookline, Mass., has been spending the summer at Fishers Island, is the guest for a few days of Mrs. Charles S. Holbrook of McKinley avenue.

Bankruptcy Case. A hearing in the bankrupt estate of William B. Tyler, who conducted a confectionery and ice cream store on Main street, was held before Amos A. Browning, referee in bankruptcy, Monday. Herman Alofsin, 24, was appointed trustee of the estate. Also present, Quinn, Frank Pattison and J. E. Herick appraisers
